

# *Review of* Agrarian Studies

*Review of Agrarian Studies* is the peer-reviewed journal of the Foundation for Agrarian Studies ([www.agrarianstudies.org](http://www.agrarianstudies.org)), a charitable trust based in India and established in 2003. The major objectives of the Foundation are to facilitate and sponsor multi-disciplinary theoretical and empirical enquiry in the field of agrarian studies in India and elsewhere in less-developed countries. The Foundation does so in association with a wide section of people interested in the agrarian question, including persons associated with academic institutions, social and political activists, members of mass organizations working in the countryside, and other professionals and scholars.
